City of Kyoto

Kyoto reborn in the new culture

With a history of over 1,200 years, Kyoto is often referred to as Japan's 'soul'. The new form of culture preservation is to introduce the travelers sophisticated culture and traditions such as Zen Meditation, Tea ceremony, and other cultural experiences through the temples including the World Heritage. A traditional art of Kyoto, Kyo-yuzen dyeing is taught at Miyakomesse where is held Kyoto International Anime Fair (Pop Culture). Kyoto is the perfect place to witness the intersection of the evolution with long-standing tradition and culture.

KYOTO
